Important Option Disclosures: Options are complex instruments that are not suitable for every investor, may involve a high degree of risk, and may be appropriate investments only for sophisticated investors who are capable of understanding and assuming the risks involved. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Any trade information is preliminary and not intended as an official transaction confirmation. If the information contained herein regards options related content, such information is available only to persons who have received the proper option risk disclosure documents. For a copy of the Option Clearing Corporation's Characteristics and Risks of Standardized Options, please contact your BNPP sales representative or visit the OCC's website at <http://www.theocc.com/about/publications/character-risks.jsp>

Important ETF Disclosures: For any ETFs discussed in this document, you should consider the investment objectives, risks, and charges and expenses of the investment company carefully before investing. The prospectus, and if available, the summary prospectus, contains this and other important information about the ETF. You may obtain a prospectus and, if available, a summary prospectus by calling +1 212 841-3099. The prospectus if available, and summary prospectus should be read carefully before investing. As with any investment, ETFs have risks. These include the general risks associated with investing in the underlying assets, potential tracking error, and the possibility that particular indices may lag other market segments or active managers. In addition, ETFs investing in international markets may include currency and geopolitical risks, while fixed income ETF risks also include credit and interest rate risk. BNPP and its affiliates may hold a position or act as a market maker in the financial instruments discussed, or act as an advisor, manager, underwriter, or lender to such issuer. As a result, BNPP may have potential conflicts of interest relating to the ETFs that are discussed in this material. In particular, BNPP may act as an Authorized Participant in the purchase or sale of shares from an ETF and participate in the creation and redemption of the securities covered in this material. In connection with these activities, BNPP may receive a fee, may be deemed to be an underwriter of the ETF shares, and may receive information about pending creations or redemptions of large blocks of ETF shares. Under no circumstances shall BNPP or its affiliates be obliged to disclose any information that it has received on a confidential basis or to disclose the existence of such information. BNPP also may act as a market maker or block positioner in the ETF shares discussed in this material, or financial instruments that are held by the ETF and/or are part of the index whose performance the ETF seeks to track. As a result, BNPP may be buying or selling ETF shares (or the instruments underlying the ETF shares) for other customers or for its own account while you are selling or buying ETF shares. BNPP may have multiple advisory, transactional, financial and other interests in the companies whose securities or other instruments may be purchased or sold by an ETF discussed in this material. BNPP may from time to time engage in business with these companies, including extending loans to, making equity investments in or providing advisory services to the companies, including merger and acquisition advisory services. In the course of those activities, certain BNPP personnel may acquire non-public information about the companies. Such information could potentially affect the prices at which the ETF shares trade. BNPP will maintain the confidentiality of such information and not disclose it to the ETF, ETF holders, or other unauthorized personnel.
